

● FOR BUSINESS OWNERS

# Shipped before quarter-end.

## *Owned by your team.*

One or two specific bets, shipped this quarter, handed off to your people clean. No 12-person AI team. No strategy deck.

The category is moving. Hiring a team takes a year you don't have, and a strategy deck doesn't move revenue. You want bets shipped, owned by your people, and no ongoing dependency on us.

### WHAT WE SHIP: PICK ONE OR TWO PER ENGAGEMENT

- |                                                                                                                                                                                                                                                                                                                                                                                                                                                   |                                                                                                                                                                                                                                                                                                                                      |

### THE ENGAGEMENT

Two AI shepherds delivering **one bet at a time**, with a small team behind us when the bet calls for it. We train your people to take the dogs from us as we go, and by the end, your team runs the flock without us.

**8-12** WKS / BET

**1-2** BETS / QUARTER

**0** ONGOING DEP.

Shipped before quarter-end. Owned by your team. The flock works for you, on your pasture, without our hand on the crook.
