

● FOR EXECUTIVES

A real competitive advantage you can defend at the board.

Two AI shepherds working at exec level. Real product before the next board cycle, not another deck, not another vendor.

Engineering is maxed. The next board cycle is closer than your roadmap. You need someone who works at exec level and ships real product, not another deck, not another vendor.

WHAT WE SHIP: ALL FIVE, ONE ENGAGEMENT

- 01

Executive briefing agent
Jira, Slack, the CRM, the dashboards, synthesised into a daily decision brief that lands before standup.
- 02

Brand-grade AI features
Agent-first UX woven into your existing product. Features your users notice, not a chatbot bolted to the corner.
- 03

Strategic intelligence platform
Competitor moves, market signal, IR chatter, in real time. Weekly board prep, automated to a daily heartbeat.
- 04

AI-augmented internal stack
Custom agents that replace 3+ SaaS subscriptions. The wool from your own flock, instead of someone else's.
- 05

Refreshed brand identity
A visual system that signals "AI-serious," not "we put AI in the deck."

THE ENGAGEMENT

Two AI shepherds **at exec level**, leading the build and the team behind us when scope calls for it. **Decisions about what** get made together; **decisions about how**, by us.

4-6 MONTHS	5/5 DELIVERABLES	1 ENGAGEMENT
------------	------------------	--------------

Agents, dogs, dashboards, and a refreshed brand surface, fenced, monitored, owned by your org. No AI-theatre. Momentum for your team.
